Some necessary fixes have been made recently, and information about our college's offerings has been reviewed and corrected. The committee discussed options regarding adding new media and information and increasing its visibility on the Student Affairs website to provide greater ease of access for students.

### Course evaluation questions

The committee plans to extend questions to regarding experiences on international trips to all participants, presented outside of general course evaluations. Dr. Doty will follow up with the International Center if something similar already exists, although some questions will need to be specifically developed within the context of individual trips.

There will likely be four Shorty Study Abroad trips offered this academic year. The most probable trips to be offered are PharmAustralia, PharmThailand, PharmUK and PharmScan.
