Agenda Items	Overview / Action Items	Responsible Party	Timeline
Discussion: Approval of 3/09/20 meeting minutes	Action Items: Revisiting March 2020 minutes. Motion: Group review for any modification. Committee Decision: March 2020 minutes approved.	Mobley	
Discussion: Strategic Plan Presentations	Motion: Dr. Mobley introduced strategic plan to the group and asked each Associate Dean to give a presentation on their respective goal. Committee Decision: All 5 goals were reviewed and the committee members were given the opportunity to ask questions, make suggestions, and give feedback. Some metrics need to be re-categorized as tactics and vice versa.	Segal Tebbett, Gums Keller-Wood Buring	

	<p>Increased advertisement for grad programs was recommended. Certain language changes were proposed, for example: telehealth vs telemedicine. There's focus on different models of telehealth. New practice models, sites, and faculty is expected to expand partnerships in JAX and ORL. It was decided that creating a listerv for faculty across college for sending out invitations would be beneficial. Expanding students' knowledge of ability to pivot in their career was emphasized. Need to get the message out to students that electives grades won't impact their GPA in terms of honors or probation. Motivate them to select electives they're interested in, not whichever is an easy A. It was pointed out that there used to be only 4 goals, now there's 5. 4&5 were once combined. There's now more emphasis on D&I and we're purposely seek out underrepresented minorities as students. The 5th goal is a hybrid effort b/w Faculty Dev (Segal) and Dr. Tebbett's work.</p>		
<p>Discussion: Academic integrity concerns Meeting Adjourned</p>	<p>Action Items: Notes will be forwarded to Amanda for updating the Strategic Plan spreadsheet.</p> <p>Motion: Review comparison of iRAT quiz scores prior to COVID-19 pandemic and after when moving to remote courses in 2020.</p> <p>Committee Decision: It was collectively determined by the group that students were testing notably better on their iRATS remotely vs in class. However, this has not been the case for exams. Need to determine what makes the difference and possibly have students show a video</p>	<p>Whalen</p>	

	<p>of their surroundings prior to taking any kind of test/quiz to avoid the potential for cheating. Another theory was offered that perhaps the reason students are doing better remotely is because they're test taking in a space where they would normally study. They may be in a better state of mind feeling more comfortable and focused.</p>		
	<p>Action items: Develop methods to reduce the possibility of cheating and consider factors that may contribute to higher scores on iRATS when testing remotely vs in class.</p>
